

REMARKS

Applicants submit herewith the above Corrected Listing of the Claims. In Particular, the Corrected Listing of Claims has been revised to reflect that claim 76 have been Currently Amended as the Examiner had indicated. Further Applicants have corrected a clear oversight in claim 76. As noted on page 9 of the Response submitted on December 20, 2008, the term "molecules" was deleted from claim 76 and replaced with "the antigen or an immune cell secretory product." However, although claim 76 presented the added underlined text it did not have the term molecule struck through to represent the deletion of the term from the claim. Applicants have corrected this clear error. Applicants believe the Corrected Listing of the Claims above now places the Amendment that was submitted on December 20, 2007 in compliance with 37 C.F.R. § 1.121. No new matter is presented by this amendment.

Applicants respectfully request that the amendment be entered and the remarks therein be made of record in the file history of the instant application.

Applicants believe that no fee is required for filing this amendment.
